Overall migration analysis:

Samples of the product, or a similar product made from identical plastic material, have been tested for overall migration according to the test conditions specified in (EU) 10/2011, and the article complies with the overall migration limit of 10 mg/dm<sup>2</sup> or 60 mg/kg.

Silicone: OM2 (10 days at 40 °C), Simulant D1, D2. Ratio of food contact surface area to volume: 1.26 dm<sup>2</sup>/150 ml

The Silicone material has also been tested and passed for OM3 and OM7 (Food simulant A, B, D1, D2).

Specific migration analysis:

This product does not contain any substances that are restricted under Annex I and II of Regulation (EU) No 10/2011 and amendments – on plastic materials and articles intended to come into contact with food.

A risk assessment according to Regulation (EU) No. 10/2011 and EU Regulation (EC) No 1935/2004 was performed on this product.

The product does not release PAAs above the detection limit specified in Regulation (EU) No. 10/2011.

The product complies with the organoleptic requirements applicable to FCM not yet in contact with food.

This product does not contain substances subject to purity criteria.

No dual use additives were used in the manufacture of this product.

There is no functional barrier present in the product.
