Color code: 2791

Color name: Pineapple / Sandy

Color code: 2623

Color name: Around the world / Sandy

Color code: 2501

Color name: Arctic Sea / Ocean view

Intended use:

For food contact. Dishwasher safe, max. 60 °C. Always clean on the top rack of the dishwasher. To preserve the graphic print, we recommend hand washing only. There may be some fading of the graphic print over time, but this will not impact the performance of your product.

Recommended temperature range: -10 °C. Maximum temperature: + 100 °C.

Minimum and maximum temperature are given to ensure physical safe use. The material itself can tolerate higher temperatures, as stated on the product itself.

Plate and bowl:

Suitable for microwave, max. 100 °C. Dishwasher safe, max. 60 °C. Keep away from sharp objects. This may damage the product.

Mug: Suitable for microwave, max. 100 °C. Dishwasher safe, max. 60 °C.

Spoon:

Not suitable for oven or microwave. Dishwasher safe, max. 60 °C.

Type (s) of food intended to come into contact with the material: All types of food stuff, repeated use.

This product is intended to be used for: Storage at room temperature or below up to 30 days, including heating up to 70 °C for up to 2 hours, or heating up to 100 °C for up to 15 minutes.

This declaration of conformity is issued under the sole responsibility of the manufacturer.

The object of the declaration described above is in conformity with the relevant Union harmonization legislation:

Regulation (EC) 1935/2004 and amendments - on materials and articles intended to come into contact with food

Regulation (EC) 2023/2006 - on good manufacturing practice for materials and articles intended to come into contact with food

Regulation (EU) No 10/2011 and amendments - on plastic materials and articles intended to come into contact with food

Danish executive order, BEK nr. 681 of 25/05/2020 - Materials in Contact with Foodstuffs

German food Articles of Daily Use and Feed Code of September 1, 2005 (LFGB), Section 30 & 31

Resolution ResAP (2004) 5 on silicones to be used for food contact applications

Regulation (EU) 2024/3190 - on the use of BPA in food contact materials and products

References to the relevant harmonized standards or the common specifications used or references to the other technical specifications in relation to which conformity is declared:

EN 14372:2004 Child use and care articles. Cutlery and feeding utensils. Safety requirements and tests – Construction and mechanical requirements and tests

EN 14350:2020+A1:2023 Child care articles. Drinking equipment. Safety requirements and test methods – Construction and mechanical requirements and tests

EN 14350:2020+A1:2023 Child care articles. Drinking equipment. Safety requirements and test methods – Chemical requirements and test methods

EN 14350:2020+A1:2023 Child care articles. Drinking equipment. Safety requirements and test methods – Colour fastness

ITS-M0001 Mar. 16, 2021 Dishwasher safety, 5 cycles (70 °C, 90 min)

Specific Migration of Primary Aromatic Amine for Plastic Materials in Contact with Foodstuffs – Commission Regulation (EU) No.

LIEWOOD

10/2011, Commission Regulation (EU) No. 2020/1245 and Its Amendments

Overall migration analysis:

Samples of the product, or a similar product made from identical plastic material, have been tested for overall migration according to the test conditions specified in (EU) 10/2011, and the article complies with the overall migration limit of 10 mg/dm² or 60 mg/kg.

Silicone: OM2 (10 days at 40 °C), Simulant D1, D2. Ratio of food contact surface area to volume: 1.26 dm²/150 ml

The Silicone material has also been tested and passed for OM3 and OM7 (Food simulant A, B, D1, D2).

Specific migration analysis:

This product does not contain any substances that are restricted under Annex I and II of Regulation (EU) No 10/2011 and amendments - on plastic materials and articles intended to come into contact with food.

A risk assessment according to Regulation (EU) No. 10/2011 and EU Regulation (EC) No 1935/2004 was performed on this product.

The product does not release PAAs above the detection limit specified in Regulation (EU) No. 10/2011.

The product complies with the organoleptic requirements applicable to FCM not yet in contact with food.

This product does not contain substances subject to purity criteria.

No dual use additives were used in the manufacture of this product.

There is no functional barrier present in the product.

Place and date of issue: Copenhagen, 28-05-2026
